

# Provider Medi-Cal Enrollment Now Required

## Submit Your Application Now

The Department of Health Care Services (DHCS) requires all CalOptima contracted providers participating in Medi-Cal to enroll in the Medi-Cal program through DHCS no later than **December 31, 2018**. This includes those providers who may have been granted an exception in the past.

1

This is now a statewide requirement, affecting all contracted CalOptima providers.

2

Failure to enroll in the Medi-Cal program by the deadline will result in termination of your CalOptima provider contract and impact your payment.
