## **CHOC Children's 24/7 COVID-19 Nurse Advise Line 1-844-GET-CHOC**

Children's Hospital of Orange County (CHOC Children's) recently established a 24/7 nurse advice line for Orange County families with pediatric COVID-19 questions.

The call is free for all families, regardless of insurance coverage or immigration status 1-844-GET-CHOC (1-844-438-2462).

Families who call will speak to a pediatric nurse who will guide them through an evidence-based triage. As appropriate, families will be directed to contact their primary care provider (PCP) for follow-up care or to the nearest urgent care or emergency room. If the member's PCP is not available, CHOC providers are available for a free telehealth visit.
